COVID-19 Stakeholder Update / 28.04.20

This is the Ministry of Justice's regular stakeholder communications update service. This is intended to signpost the latest COVID-19 guidance and central government updates.

We encourage organisations to share these updates with your wider networks to ensure a wide circulation of important communications. For monitoring and evaluation purposes, we'd gratefully receive information on who you are sharing this with.

We would also find it helpful to know about your own communications plans and any intel that will help inform our communications moving forwards. Please do get in touch at stakeholder.intel@justice.gov.uk.

- We have robust and flexible plans to ensure we can continue to deliver key services across the justice system.
- A network of priority courts will remain open during the coronavirus pandemic to make sure the justice system continues to operate effectively.
- Selected lower-risk offenders, within weeks of their release dates, and pregnant women in custody who do not pose a high risk of harm to the public will be temporarily released from prison. Additionally, works have begun to deliver 500 temporary, single occupancy units at seven jails. This will increase space in prisons and limit the spread of Coronavirus helping protect staff, prisoners and the NHS.

HMPPS

NEW: Update on COVID-19 in prisons. Prisons Minister Lucy Frazer has provided an update on measures introduced to contain the spread of COVID-19 in jails. This follows new modelling by Public Health England (PHE) and HM Prison and Probation Service (HMPPS) that indicates jails are limiting deaths and the transmission of the virus within the estate, as a result of the compartmentalisation measures introduced by HMPPS.
